

User Manual

LED LINEAR HIGH BAY FIXTURE

Important: Read all instructions prior to installation.

Included Parts

- 1 - High Bay Light
- 1 - Suspension Mount Cable Set

Optional Accessories

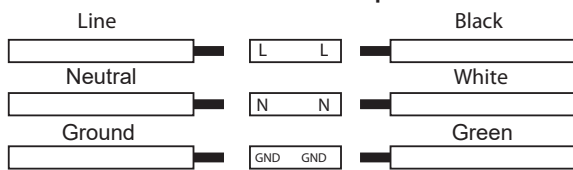

- 1 - Surface Mount Bracket Kit

Safety and Notes

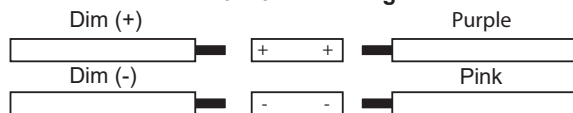

- Product should be installed by certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures. Ensure the fixture is properly grounded at all times.
- Avoid looking directly into the lamp when illuminated.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support the fixture may result in damage or injury, for which the manufacturer does not assume responsibility.
- Do not attempt to open the LED high bay light for any reason.
- Metal surface is hot while in operation, please don't touch fixture before it cools down adequately.

Wiring Diagram

120–347 VAC Input

0–10 V Dimming

Specifications

Model	TLHBTU4F200P
Operating Temperature	-35–45° C
Environmental Rating	IP65
Dimming	0–10 V

Check product label for specific electrical specifications related to installation. Improper installation will void warranty.

Installation

Suspended Mounting

1. Measure the distance needed and secure cables to the latches.
2. Attach cable to light, then hang the light by attaching cable to the ceiling bracket.
3. Connect wiring.
